

THRIVING TOGETHER

“Swire Pacific’s commitment to sustainability helps to build the foundation for its growth and to provide opportunities for innovation and improved efficiency. Sustainable development is a strategic imperative for our businesses and integral to our overall approach to building long-term value for our shareholders.”

Merlin Swire,
Chairman, Swire Pacific Limited

The Swire Pacific 2018 Sustainability Report showcases our progress in embedding sustainability in our everyday operations, for the people with whom we work and for the communities in which we operate. Our commitment to sustainability is essential to creating value for our shareholders.

Reporting is critical to strengthening our sustainability efforts. This year we introduced a new section for Task Force on Climate-Related Disclosures to reflect our commitment to global best practice. We have also increased our disclosure on social sustainability matters such as Diversity & inclusion and Employment.

Our highlights summarise our achievements working towards a more sustainable and resilient future for everyone.
